I worked 7 years at tysons with Kevin,he did our trays for the breast line. He was very nice a little quiet,I'd joke with him and give him a hard time lol. He was always reading books in the cafeteria at tysons. And leaving his car windows down in parking lot when it was raining outside, I'd go find him and let him k it was raining. And he'd take off to go roll up his windows. He was a really good person. Prayers for the family
