“ *Mike was a dear friend of mine. We spent a good evening together with Sgt Randall Schutt on the night of the Air War starting in Desert Storm. We had some contraband with us that evening that made it that much better. Every time we talked to one another over the years we brought that night up and laughed about it every time. We always laughed when we talked. Any time we had the chance we played spades as partners and we played so much we new the others cards after the other had played his second card. After his second tour in Iraq he came to visit me and we watched the OU Sooners kick some butt and had to make a beer run into town during a weather event (hurricane force winds) that we would always laugh about. I Loved Mike like a brother and he felt the same about me. The world was a better place with Mike in it. Mikes Mom is one of this Country's Greatest Women. The Watts Family has a lot to be proud of and I am proud to call them my friends. With Love Tony Tedder the other half of The spades technicians that were so good at cheating it should have been against the rules.*
